

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

THE KENNEL STUD BOOK

THE KENNEL STUD BOOK

1

THE KENNEL STUD BOOK

THE
KENNEL STUD BOOK
VOLUME THE SECOND

CONTAINING
*THE ENTRIES OF SOME OF THE MOST CELEBRATED
PACKS OF FOXHOUNDS FROM THE TIME
OF THE FIRST VOLUME*

EDITED BY
CORNELIUS TONGUE
(*CECIL*)

EDINBURGH
PRINTED BY BALLANTYNE AND COMPANY
1875

PREFACE TO THE SECOND VOLUME.

WHEN the first volume of the "Kennel Stud Book" was issued it was "intended to publish every two years the entries of young Hounds." That, however, from various causes, was not carried out.

At the earnest request of many influential Masters of Hounds, the second volume is now produced, containing the entries of some of the most celebrated old-established Packs from whence Sires are principally sought, and so arranged that all pedigrees of both sexes can readily be traced to their ancestors in the original work.

It is confidently hoped that this volume may be considered of value, and meet with sufficient support as to warrant a reproduction of a similar work in future every two or three years.

HOLD ON TO THE LINE.

EXPLANATORY NOTES.

THE figures in line with the names refer to pages in the original "Kennel Stud Book," where further pedigrees will be found.

The dates over the names of Sires and Dams denote the year when those were entered whose pedigrees previously appear in this work.

The few Hounds not traceable direct to the first volume will be found at the end of the respective entries.

In all cases Hounds are understood to belong to those Kennels where they were *entered*, whether bred at home or procured from other establishments; thus their pedigrees are readily found.
